Build a better customer experience

Integrate with our intuitive, developer-friendly APIs to build the exact experience you need.

Deliver realistic interactions

Leverage consistent low latency to create a high-quality conversational experience.

Streamline your call flows

Use media forking to unlock voice analytics and layer audio without complicated call flows.

What can you build with Telnyx?

Real-Time Analytics
Use media forking to analyze and respond to call media (e.g., customer sentiment) in real time.

Cloud IVR
Build an intelligent IVR to quickly get customers where they need to go — iterate with ease.

SMS Chatbots
Solve customer problems fast with automated, personalized text conversations.

Layered Audio
Layer audio files to include background media for a more realistic customer experience.

"Because we're able to get latency down to the level we want with Telnyx, we don't have to bend the truth with our customers like some of our competitors."

Benjamin Gleitzman, CTO

replicant

Intuitive APIs built for business

- Choose the capabilities you need.
- Get or port numbers fast.
- Migrate without the headache.
- Build the experience you want.
- Own your roadmap, scale as you grow.

```
1   // Create a connection
2
3   curl -X POST \
4   --header    "Content-Type: application/json" \
5   --header    "Accept: application/json" \
6               "x-api-token: API_TOKEN" \
7               "x-api-user: API_USER" \
8               '{
9   "connection_name": "Chicago Office",
10  "active": true,
11  "dnis_number_format": 0,
12  "anchorsite_override": "Chicago, IL"
13  }' \
14  "https://api.telnyx.com/security/connection
```

Brian S.
Product Manager

"Gain granular-level control over your call flows."

The Telnyx difference

Call Quality Assurance
Our purpose-built global IP network means greater reliability and security with lower latency.

Granular Control
Telnyx APIs allow simultaneous bidirectional data transmission for real-time communications.

Transparent Pricing
Get competitive entry-level pricing with automatic volume and commitment discounts.

Deep Number Inventory
We give you infinite choice and flexibility with phone numbers in over 60 countries.

Media Streaming
Deliver the media stream to multiple recipients to enable real-time features like sentiment analysis.

24/7 Support
Access unparalleled support around the clock from our team of expert in-house engineers.
