

Automate and optimize your call flows to better manage customer conversations.

Build sophisticated and responsive calling experiences into your own applications on a purpose-built global IP network.

Goodbye, expensive hardware

Eliminate the need for expensive phones and PBX systems. Call directly from your web app.

A flexible, scalable solution

Add agents, contact centers, messaging capabilities and phone numbers with ease.

Everything you need in one place

Integrate voice into your existing application so your agents always have context.

What can you build with Telnyx?

- ✔ **Cloud IVR**
Build a scalable IVR to deliver a better customer experience and reduce costs.
- ✔ **Real-Time Analytics**
Analyze and respond to call media in real time and unlock new levels of insight.
- ✔ **Call Recording**
Record calls for effective training and coaching, with long-term storage.
- ✔ **Inbound Call Whisper**
Improve conversion with an audible pre-call heads up about the caller and campaign.

“We’re now able to provide much more value to our customers. (Telnyx is) a flexible alternative that is quickly and easily implemented ... there can be significant cost savings as well.”

Scott E, CRO

Intuitive APIs built for business

- Choose the capabilities you need.
- Get or port numbers fast.
- Migrate without the headache.
- Build the experience you want.
- Own your roadmap, scale as you grow.

```
1 // Create a connection
2
3 curl -X POST \
4 --header "Content-Type: application/json" \
5 --header "Accept: application/json" \
6 "x-api-token: API_TOKEN" \
7 "x-api-user: API_USER" \
8 {
9 "connection_name": "Chicago Office",
10 "active": true,
11 "dnis_number_format": 0,
12 "anchorsite_override": "Chicago, IL"
13 } \
14 "https://api.telnyx.com/security/connection"
```

Andrew R.
Engineer

"Our API docs make it easy to integrate your application."

The Telnyx difference

Call Quality Assurance

Our purpose-built global IP network means greater reliability and security with lower latency.

Granular Control

Telnyx APIs allow simultaneous bidirectional data transmission for real-time communications.

Transparent Pricing

Get competitive entry-level pricing with automatic volume and commitment discounts.

Deep Number Inventory

We give you infinite choice and flexibility with phone numbers in over 60 countries.

Media Streaming

Deliver the media stream to multiple recipients to enable real-time features like sentiment analysis.

24/7 Support

Access unparalleled support around the clock from our team of expert in-house engineers.

Ready to get started?

Our engineers are standing by 24/7.
