

Drive employee collaboration and customer engagement with **all your touchpoints in one place.**

Build enterprise-grade voice and messaging solutions on a purpose-built global network.

A scalable solution

Grow volume and expand globally with ease. Add new locations and communications channels as needed.

Integrate everything you need

Make, receive, route, conference and record calls. Integrate messaging and instantly provision numbers.

Flexibility and security combined

Eliminate the need for costly hardware and upgrades. The cloud is intrinsically multi-site with optimal security.

What can you build with Telnyx?

- ✓ **Inbound and Outbound Calling**
Integrate with our private, global IP network for crystal-clear calls every time.
- ✓ **Fast, Automated Porting**
FastPort® automates number porting for a quick, seamless experience.
- ✓ **Multi-Tenancy**
Serve all customers from a single interface for a more cost-effective solution.
- ✓ **Integrated Messaging**
Build SMS into your offering for omnichannel customer experiences.

“With 2600Hz’s platform and Telnyx as the carrier, customers are provided a full end-to-end solution so that they can grow and scale their business with ease.”

Patrick S., COO & Co-Founder

Intuitive Solutions Built for Business.

- Choose the capabilities you need.
- Get or port numbers fast.
- Migrate without the headache.
- Build the experience you want.
- Own your roadmap, scale as you grow.

“Our self-service portal and Numbers API enable fast, easy and transparent number porting.”

Rogelio Perez
Product Manager, Telnyx

The Telnyx difference

Call Quality Assurance

Our purpose-built global IP network means greater reliability and security with lower latency.

Real-Time Reporting

Analyze and improve your customer experience with automated, real-time reporting.

Transparent Pricing

Get competitive entry-level pricing with automatic volume and commitment discounts.

Deep Number Inventory

We give you infinite choice and flexibility with phone numbers in over 60 countries.

Advanced Number Features

Use our E911 service for emergencies or CNAM for easy caller ID configuration.

24/7 Support

We offer unparalleled support around the clock from our team of expert in-house engineers.
